

WEB COOKIES POLICY

OPDE Group (hereinafter Opdenenergy), formed by its parent company OPDE Investment España S.L. and its subsidiaries, inform the users of its website on the use of their own and third party cookies in order to improve their services.

What is a 'Cookie'?

A cookie is a file that is downloaded by the user's computer when accessing certain web pages to store and retrieve information about the browsing that is carried out from that computer. They have a double function, the control and recognition of users, and obtain information about the user's browsing habits.

Allow, block or delete cookies:

The cookies installed on your computer can be blocked or deleted by setting the browser options installed on your computer.

Informative links of the main browsers are included below:

What types of cookies does the Opdenenergy website use?

- **Technical cookies.** These cookies are created and managed exclusively by Opdenenergy to allow browsing through this website, as well as using its different options and services.
- **Analysis cookies.** These cookies are handled by Opdenenergy or by third parties to allow assessing the number of users and perform the measurement and statistical analysis of the use of this website.

No information will be obtained in any case about the user's personal data, ensuring the privacy of the people who browse the website.

External links to social networks:

The Opdenenergy website may have external links to other web pages or internet sites that could treat the information in accordance with other privacy policies (for example, social networks). Under no circumstances shall Opdenenergy be responsible for the use that third parties make of that data if the interested party freely decides to provide them.

In order to improve users' experience, the Opdenenergy website can enable buttons or links to social networks to allow users to share content they find interesting with their community.

The buttons or links to social networks can also avoid the need to provide further personal data to the Opdenenergy website, since the information already shared with these social networks can be used and Opdenenergy has no access to it.

Social network cookies can be stored in your browser while you browse the Opdenenergy website (for example, when you use a button or link to share content in a social network).

Social networks have their own cookies policies.

What happens if cookies are disabled?

Browsing the Opdenenergy website may not be optimal and some resources may be disabled.

Updates and changes:

The legal entity that owns the website reserves the right to change this Cookies Policy depending on its needs, legislative or regulatory requirements, or with the purpose of adapting that policy to the instructions issued by the Spanish Agency for the Protection of Data or competent body, therefore users are advised to check the information that is periodically published about the Cookies Policy.
